
Engineer-in-Training or Junior Engineer - Civil Engineering, Nanaimo, BC

Chatwin Engineering Ltd. is a multi disciplinary civil engineering company located in Nanaimo, BC.

We are currently seeking an Engineer-in-Training or a Junior Engineer for our Civil Engineering Department.

As a member of the project team, you will be working on First Nation infrastructure and land development design and construction projects, which includes water supply, well source development, distribution piping analysis and construction, reservoir design and chlorination systems, sanitary sewer collection, forcemains, pump stations, sanitary sewer treatment systems and other Civil work as required. As a team member you will be involved with:

- infrastructure design for residential and commercial land development
- preparation of feasibility studies, detailed design reports, construction progress reports, as-built and completion documentation
- preparation of construction specifications, cost and material estimates, project schedules, contract administration and reports
- conducting field reviews and inspections of construction projects
- conducting topographic, construction layout and as-built surveys

Experience with AutoCAD Civil 3D, MS Office applications is required. Water CAD, StormNET and other design analysis software, would be an asset.

Candidates must be eligible to be registered with the Association of Professional Engineers and Geoscientists of BC (APEGBC).

Chatwin Engineering offers competitive salaries and benefit package. Employee satisfaction is a key component to Chatwin Engineering's corporate culture and we are committed to providing a diverse and positive work place for our employees who we consider our greatest asset.

How to Apply

Please email your resume and cover letter to carol@chatwinengineering.com by February 17, 2017.

We would like to thank all applicants for their interest, however, only those considered for an interview will be contacted.

Living in Nanaimo on Vancouver Island

Vancouver Island and southwestern British Columbia are known for having the best climate in Canada. We are surrounded by some of the most beautiful wilderness, beaches and recreational areas in the world. Summer temperatures are usually high 20°C and in winter, if it falls below 10°C, you have the consolation of great skiing and snowboarding. Mount Washington ski resort is located 1 hour from Nanaimo and is reputed to have had the most snow in North America for many years. If surfing is your thing you might take the stunning drive out to Long Beach, or drive the road to Sooke for world class conditions.

Whether you like to fish, hike, sunbathe, ski or enjoy the cultural events of a city, we have it all, complete with campgrounds, wilderness retreats and resorts known internationally for their spas and chefs. Ferries leave hourly to Vancouver from Nanaimo and daily to Washington State from Victoria. The seaplanes are a pleasure not to be missed – Nanaimo to Vancouver is a gorgeous 20-minute flight.

Surrounded by beautiful beaches and ski resorts, it isn't any wonder that Vancouver Island has been a magnet. The influx of people moving to the Island over the past 10 years has created new subdivisions and commercial developments and for us that means more jobs and beautiful, ever-changing communities to enjoy.
